World Lymphedema Day
March 6

Join us as we observe World Lymphedema Day

Fact: Lymphedema affects an estimated 15% of all cancer survivors and up to 30% of all those treated for breast cancer.

Fact: The World Health Organization estimates that over 170 million people worldwide have secondary lymphedema.

Please join us for a free open house in recognition of World Lymphedema Day, when organizations and individuals around the world unite to raise awareness about lymphedema and work to make it a global health priority.

Tuesday, March 6
9 a.m. — 4 p.m.
Eleanor N. Dana Cancer Center
Renee’s Survivor Shop
- Lymphedema therapists from The University of Toledo Medical Center will answer your questions about treatment approaches
